

Table of contents

Executive summary	i
Current status	i
Global water for pharmaceuticals market, 2014	i
Regional opportunities	ii
Water for pharmaceuticals market by region, 2011–2018	ii
Technology trends and opportunities	iii
Water for pharmaceuticals market by system, 2011–2018	iii
1. Market overview	1
1.1 The pharmaceutical industry	1
Figure 1.1 Recent patent expiry of blockbuster medicines	1
Figure 1.2 Revenues from blockbuster pharmaceuticals pre- and post-patent expiry	2
1.2 Market dynamics	2
1.2.1 Market consolidation	2
Figure 1.3 Pharmaceutical industry acquisitions, 1993–2013	3
1.2.2 Big pharma R&D	4
1.3 Active pharmaceutical ingredients market	4
Figure 1.4 Production of active pharmaceutical ingredients by region, 2008–2017	4
1.4 The water for pharmaceuticals market	5
1.5 Market forecast	6
Figure 1.5 Global capital expenditure on water and wastewater treatment by region, 2011–2018	6
Figure 1.6 Global capital expenditure on water and wastewater treatment by system, 2011–2018	7
2. Global outlook	8
2.1 Overview	8
Figure 2.1 Global forecast of pharmaceutical sales, 2010–2017	8
2.2 Developed pharmaceutical markets	9
Figure 2.2 Pharmaceutical sales in developed markets, 2012 and 2017	9
Figure 2.3 Branded versus generic drug sales in developed markets, 2011–2017	9
Figure 2.4 Water for pharmaceuticals market: Developed regions, 2011–2018	10
2.2.1 United States	11
Figure 2.5 Global pharmaceutical sales in 2012 and 2017 – United States	11
Figure 2.6 Value of product shipments in US pharmaceutical manufacturing, 1992–2018	12
Figure 2.7 Projects in the United States	12
2.2.1.1 Market forecast	13
Figure 2.8 Water for pharmaceuticals market: United States, 2011–2018	13
2.2.2 Western Europe	14
Figure 2.9 Global pharmaceutical sales in 2012 and 2017 – Western Europe	14
Figure 2.10 Value of production from pharmaceutical manufacturers in Western Europe, 2000–2018	15
Figure 2.11 Projects in Western Europe	16
2.2.2.1 Market forecast	17
Figure 2.12 Water for pharmaceuticals market: Western Europe, 2011–2018	17
2.2.3 Japan	18
Figure 2.13 Global pharmaceutical sales in 2012 and 2017 – Japan	18
Figure 2.14 Value of manufactured goods produced by the Japanese pharmaceutical industry, 2002–2018	19
2.2.3.1 Market Forecast	20
Figure 2.15 Water for pharmaceuticals market: Japan and South Korea, 2011–2018	20
2.3 Developing pharmaceutical markets	21
Figure 2.16 Pharmaceutical sales in developing markets, 2012 and 2017	21
Figure 2.17 Branded versus generic drug sales in developing markets, 2011–2017	22
Figure 2.18 Pharmaceutical sales in developing markets, 2008–2017	23
Figure 2.19 Water for pharmaceuticals market: Developing regions and rest of the world, 2011–2018	24
2.3.1 China	25

Water for pharmaceuticals

Figure 2.20 Global pharmaceutical sales in 2012 and 2017 – China	25
Figure 2.21 Estimated value of pharmaceutical manufacturing in China, 2006–2018	26
Figure 2.22 Projects in China	26
2.3.1.1 Market forecast	27
Figure 2.23 Water for pharmaceuticals market: China, 2011–2018	27
2.3.2 India	28
Figure 2.24 Global pharmaceutical sales in 2012 and 2017 – India	28
Figure 2.25 Value of pharmaceutical production in India, 2005–2018	29
Figure 2.26 Projects in India	29
2.3.2.1 Market forecast	30
Figure 2.27 Water for pharmaceuticals market: India, 2011–2018	30
2.3.3 Brazil	31
Figure 2.28 Global pharmaceutical sales in 2012 and 2017 – Brazil	31
Figure 2.29 Value of production in Brazilian pharmaceutical manufacturing, 2001–2018	32
Figure 2.30 Projects in Brazil	32
2.3.3.1 Market forecast	33
Figure 2.31 Water for pharmaceuticals market: Brazil, 2011–2018	33
2.3.4 Eastern Europe	34
Figure 2.32 Global pharmaceutical sales in 2012 and 2017 – Eastern Europe	34
Figure 2.33 Value of production from pharmaceutical manufacturing in Eastern Europe, 2000–2018	35
Figure 2.34 Projects in Eastern Europe	35
2.3.4.1 Market forecast	36
Figure 2.35 Water for pharmaceuticals market: Eastern Europe, 2011–2018	36
3. Technology trends	37
3.1 Overview	37
3.2 Process water	37
3.2.1 Overview	37
Figure 3.1 Pharmaceutical grade waters	38
3.2.2 Water use	39
Figure 3.2 Use and sourcing of water in pharmaceutical manufacturing in Japan, 2012	39
3.2.3 Process water trends	39
3.2.4 Market forecast	40
Figure 3.3 Capital expenditure on water treatment systems by level of treatment, 2011–2018	41
Figure 3.4 Capital expenditure on water treatment systems by region, 2011–2018	41
3.3 Wastewater treatment systems	42
3.3.1 Overview	42
Figure 3.5 Wastewater discharge destinations	43
3.3.2 Wastewater trends	43
Figure 3.6 Water reuse targets	45
3.3.3 Market forecast	45
Figure 3.7 Capital expenditure on wastewater treatment systems by level of treatment, 2011–2018	46
Figure 3.8 Capital expenditure on wastewater treatment systems by region, 2011–2018	46
4. Competitive dynamic	47
4.1 Pharmaceutical companies	47
Figure 4.1 Estimated market share of major global pharmaceutical manufacturers, 2013	47
Figure 4.2 Top 20 pharmaceutical companies by revenue	47
4.2 Water-related companies	48
Figure 4.3 Procurement interactions	48
4.2.1 Water technology companies	48
Figure 4.4 Top water technology providers	49
4.2.2 Engineering consulting firms	50
4.2.3 System integrators	50
4.2.4 Equipment suppliers	50
4.3 Procurement	51

4.3.1 Procurement process	51
4.3.2 Procurement factors	51
4.4 Industry success factors	51
4.5 New entrants	52
4.5.1 Partnerships	52
4.5.2 Acquisitions	52
4.5.3 Direct approach	53
Acknowledgements	54
